

In-class activity 4

1. Using R to explore auto data.
 - a) Download and install R on your machine via the link: <http://www.r-project.org/>
 - b) Download and install R studio on your machine via the link: <https://www.rstudio.com/products/rstudio/download/>
 - c) Download the auto data from myCourses, under “Activities→Activity 4”
 - d) Read R manual: <http://cran.r-project.org/doc/manuals/r-release/R-intro.pdf>
 - e) Download the lab file from myCourses, under “Activities→Activity 4”, and try the R commands there.

2. Using R to explore the data selected for your course project and generate the report for it.
